The Johns Hopkins Center for Talented Youth online courses will remain active throughout the entirety of the district's remote learning plan for grades 2 - 8. Therefore, there will still be 3 - 5 hours of required coursework to complete per week in order to meet the course ending deadlines for both the three-month and six-month course options.

You will continue to receive email communications on assignment completion, feedback and grades from your child's Johns Hopkins CTY online course instructor. If you have any questions at all, he or she will remain the first point of contact in regards to CTY curriculum and coursework completion.

The appropriate member of the Hoboken Public School's Johns Hopkins CTY ILP/PGP Team will continue to be aware of all Johns Hopkins CTY emails from your child's CTY online course instructor.
