A Message from the Principal

EARLY MORNING
BREAKFAST

Dear Calabro Learning Community,

HALLOWEEN
FUN

Thank you to all who joined us on Friday, November 4th for an exciting day. All students received and wore their Calabro School Spirit T-Shirts for our Morning Meeting. Mr. Baker shared our monthly anti-bullying activity; a school-wide pledge in support of Bullying Awareness Week. Also recognized at the meeting were our students of the month, and the Calabro representative as district student of the month, 5th grader Briana Ziff. She will also be recognized at the Hoboken Board of Education meeting on Tuesday, November 15th. Congratulations are also in order for our 3rd Grade for winning the Principal's Attendance Challenge for the second straight month!

MATH WORD
WALLS

Our district's Director of Innovative Programs, Mr. DellaFave, also joined in the fun. He presented us with a plaque for earning bronze certification for sustainable practices. Thank you to Ms. Forte for serving as our school's representative. Let's strive for silver certification this year!

ART WITH
MS. FORTE AND
KINDERGARTEN

After our PTO meeting, we held our first Parent/Guardian Academy Technology Expo. This began with a presentation of the technological resources that staff and students enjoy at Calabro each day. Classroom visits followed for a full period and parents/guardians saw firsthand how these resources enhance teaching and learning. It was truly an exciting and engaging day!

PARENTS CORNER

Calabro Early Morning Breakfast Recognition of our Breakfast Staff

An important start to our day is having breakfast and our breakfast staff members prepare our Calabro students for each day of learning. According to the National Institutes for Health, “eating breakfast every day is positively associated with improved school performance.” School meals provide the right balance of protein, dairy, grain, fruits and vegetables; along with age-appropriate portion sizes to ensure students get proper nutrition.

WHAT YOU CAN EXPECT

- **Whole Grains** that include breads, buns, pastas, pizza, chicken nuggets etc.
- **Increased fruit and vegetable** options are a nutrient dense choice that leaves you feeling satisfied and full.
- **Reduced fat and sugar** items provide all of the same nutrients without the unnecessary calories.
- **Lower sodium** is the result of fresh ingredients.

Ms. Cecile has been serving our children in various capacities for about 12 years. The kids are well prepared thanks to Ms. Cecile and the team that gets the kids organized and prepared with a good breakfast. Breakfast begins at 7:30 a.m. and ends at 8:10 a.m. daily.

A mathematics word wall is an active and evolving classroom tool. If you want to help students build their math vocabulary, then having a math word wall is essential and it works. The mathematics word wall identifies words and phrases that students need to understand and use to make good progress in mathematics.

The math word wall provides a visual reference for students. Therefore, students can refer to the word wall when completing assignments.

Pure
mathematics
is, in its way,
the poetry
of logical
ideas.

Albert Einstein

Calabro Elementary

Math Word Wall

DYNAMIC DATA WALL

MATH	WORDS	PHRASES
estimate	displays	If... then
range	exemplifies	But since
value	reveals	In response,
whole	implying	Supports claim
